Profile

As a FullStack developer with nine years of experience in the technology sector, I am seeking a collaborative opportunity as an application developer. My diverse experience encompasses various web and mobile projects, honing my skills in both domains.

I am adept at fostering collaborative and team-oriented environments, demonstrating proactive leadership, accountability, and a rapid learning capacity. My interests extend to the development of web applications, mobile applications, and project management.

Professional Experiences

▣ FULLSTACK LABS

August 2021 - Present

Senior Software Engineer

Colombia +57 300 2560308

As an application developer with a distinguished track record, I take pride in highlighting my experience in international web and mobile projects, where my contributions have been pivotal to the growth and success of each initiative. My key responsibilities include:

1. Backend Innovation:

Continuous development of new functionalities for backend services, optimizing application efficiency and performance to meet the specific needs of international clients.

2. Enhanced Mobile Application Experience:

Leading the development of new features for mobile applications, ensuring engaging user experiences and cutting-edge functionalities that meet and exceed expectations.

3. Advanced Technological Integration:

Expertise in integrating new libraries, driving technological innovation, and keeping our applications aligned with the latest trends and advancements.

4. CI/CD Implementation with AppCenter:

Successful implementation of AppCenter to enable Continuous Integration (CI) and Continuous Deployment (CD), streamlining software delivery and improving project lifecycle efficiency.

5. Expert Migrations:

Executing library and application migrations, showcasing advanced technical skills and a unique ability to manage seamless transitions.

September 2019 - August 2021

Software Engineer

Colombia +57 300 2560308

As a passionate application developer, I take pride in highlighting my key contributions to the development of internationally-focused web and mobile projects. My experience is distinguished by:

1. Global Innovation:

Led the development of web and mobile projects for international clients, delivering technological solutions that transcend borders and meet global expectations.

Engineering Stacks

PROGRAMMING:

- ES6
- JavaScript
- TypeScript
- React
- React Native
- Redux
- Dart
- GraphQL
- Ruby
- C#
- C++
- PHP
- .NET

FRAMEWORKS:

- Flutter
- Ionic
- Angular
- AngularJS
- VueJS
- NodeJS
- NestJS
- NextJS
- Go
- Visual Studio
- YII
- Laravel
- JDeveloper
- Yeoman
- Joomla
- Wordpress
- PrestaShop

VERSION CONTROL:

- Git
- Bitbucket
- SVN

2. Optimization of CMS on an International Scale:

Successfully developed new functionalities for the Content Management System (CMS), adapting it to the complex demands of international clients and enhancing efficiency in global content management.

3. Enriched Mobile Application Experience:

Excelled in creating new features for mobile applications, with a focus on delivering exceptional experiences that resonate with diverse and culturally varied audiences.

CETOCO SAS

February 2019 - September 2019

Development Engineer

Colombia +57 318 7348993

As a web and mobile application developer with solid experience, my focus has been on creating and continually enhancing innovative digital experiences. My contributions are highlighted by:

1. Cutting-Edge Development:

Led the development of web and mobile applications, consistently introducing state-of-the-art features that drive excellence and usability.

2. CMS Optimization:

Implemented exciting new functionalities for the Content Management System (CMS), significantly improving content management flexibility and efficiency.

3. Innovation in Mobile Applications:

Excelled in actively developing new features for mobile applications, with a focus on continually improving user experience and adopting leading-edge technologies.

ADATEC

August 2016 - February 2019

Development Engineer

Colombia +57 316 0261467

As a passionate application developer, I have been a driving force in the development and implementation of cutting-edge solutions for web and mobile applications. My experience focuses on key functions that not only meet expectations but elevate quality and innovation:

1. Innovative Development and Implementation:

Led the development and implementation of web and mobile applications, excelling in creative and high-performance solutions.

2. Execution of Assigned Tasks:

Efficiently carried out tasks assigned by the lead, ensuring consistency and quality at every stage of development.

3. Continuous Improvement of CMS:

Actively contributed to the growth of the system by developing new functionalities for the CMS, enhancing user experience and system efficiency.

Engineering Stacks

KNOWLEDGE:

- HTML
- CSS
- Mobile
- Frontend
- Backend
- CI/CD
- AWS services
- MariaDB
- MySQL
- PostgreSQL
- Oracle
- SQLite
- Cassandra
- MongoDB
- DynamoDB

METHODOLOGIES::

- SCRUM
- Kanban
- FDD
- TDD

4. Innovation in Mobile Applications:

Proactively developed new features for mobile applications, focusing on continuous improvement and adapting to the latest trends.

5. Expertise in React Native:

Successfully created a new application using React Native, showcasing my proficiency in cutting-edge technologies and my ability to embrace new tools with agility.

ARQUITECOSOFT

September 2015 – August 2016

Development Engineer

Colombia +57 315 3067013

Java

JDeveloper

Oracle

As an application developer, I have played a key role in the creation and continuous improvement of applications, excelling in various functions:

1. Development and Implementation:

Efficiently executed new requirements for the application and Implemented innovative solutions with a proactive and dynamic approach.

2. Analysis and Design:

Conducted detailed analysis of tool requirements and designed and developed solutions specializing in Oracle databases.

3. Advanced Technologies:

Experienced in developing Java forms using Oracle's ADF framework.

4. Collaboration and Support:

Actively collaborated in support activities for the business process team and provided strategic suggestions for continuous improvement of processes and implemented solutions.

5. Quality Assurance:

Meticulously prepared test plans to ensure the robustness and effectiveness of developed requirements.

Education

2016

Information Systems Engineering

UNIVERSIDAD DEL VALLE - CALI / COLOMBIA

8. Semester - August - December 2014

2010

Secondary education

TULIO ENRIQUE TASCÓN - BUGA / COLOMBIA

Hobbies

COURSES

- System Engineer - Universidad del Valle
- English (High intermediate B1+) - Centro Cultural Colombo Americano
- Angular Deep Dive 18 - Udemy
- Unity Video Games - Udemy
- PHP from Scratch - Udemy
- Angular Master - Udemy
- React Developer - Udemy
- Leadership Skills - Udemy
- Leadership - Udemy
- Master CI/CD - Udemy
- Apollo - Certification
- React Query - Certification
- Machine Learning - Certification
- Information security - Icesi University
- Basic Programming - Platzi
- English - Sena
- Database SQL - Sena
- HTML JavaScript - Sena
- Architecture - Sena
- C++ - Sena

Projects

- Portfolio Web with GitHub Pages <http://betancourtveison.github.io/>
- Angular applications
- Vue JS applications
- React applications
- Websites with Responsive Design
- Java applications like Sudoku and LunarLand
- Refrastrabe company Guacari Valle <http://refrastrabe.com/>
- Refratek company <http://refratek.com/>
